

Finance Director

**Brooks**

Finance & Business Experts

## Finance Director

When an organisation reaches a certain phase in it's growth cycle it will need the support and guidance of a Finance Director to keep it on the right path. However, this is also the stage when the company is not normally financially able to support such a role in-house.

As experienced Finance Directors from working within industry, we can provide the right level of support with the flexibility your business requires. We work with your Finance Managers and senior staff, as part of the team, to ensure the growth and continued success of the business.

The assistance we currently provide to our clients in this area include setting and monitoring both short and long term budgets, cash flow forecasting, strategic planning, analysing your business processes and working as part of your management team.

## Our Finance Director services:

1. Financial planning

2. Annual budgeting and forecasting

3. Business plan preparation

4. Monitoring and improving business processes

5. Business health check

**Monitor your success!**

**Watch your business grow!**
